6	Mode of Financing	Debt: 57.14 %; Retained Earnings: 42.86 %
7	Rationale	<p>Goyal Salt Limited at present is engaged in the business of refining of edible salts and Industrial salts on B2B and wholesale basis. The entire production of the Goyal Salt Limited is refined at two refineries situated at Nawa in Rajasthan and is committed for B2B and wholesale sales.</p> <p>Indian Salt Industry is going global. Salt production of India is around 18 to 20 million tons per annum and India is the third largest salt manufacturer of the World, after China & USA. The Demand of the Indian salt is increasing day-to-day not only in Indian households but also with the growth of industrialization in India in the Industrial Sector.</p> <p>Moreover, Potential for the Growth of Salt Industry:</p> <ul style="list-style-type: none">• India has very long coast line and out of that Gujarat Coast line is of 1600 Kms• In Gujarat in addition to existing salt industry lot of Land available along the side of coast for developing more salt works.• Climatic conditions are suitable for salt industry.• Easy Availability of skilled labours• Good Administration of our Govt. and their Corporation.• Our low cost of production• Government support for critical infrastructure facilities.• Minor Ports have loading capacity 5000 tons /day to 20000 tons /day in mid-stream loading where as big port like Kandla have achieved the av. rate of loading of 25000 tons / day. We have a big advantage that ships of the capacity from 5000 tons to 100,000 tons could be loaded at our ports. There is potential for developing more ports as per requirement. In south India there is also a big port, Tuticorin close to salt manufacturing area.• Now only 20% industries have gone for mechanization

(Formerly: Goyal Salt Private Limited)

and modernization, 50% from balance can also go immediately.

Average yield of salt works is only 100 tons per hectare. This can be increased to 300 tons per annum by adopting modernization

India has very long coast line and out of that Gujarat

The company is aiming to become a dominant player in the salt Industry by foraying in the B2C sales. The company has recently hired famous Bollywood actress Ms. Karishma Kapoor as its Brand Ambassador to promote its brand and wants to enter into retailing of edible salts in smaller packing for daily household consumption. The company also wants to export its salts to overseas market in big way.

At present our Salt Refineries and Washery at Nawa, Rajasthan has production capacity of 900 MT per day which is not sufficient to meet the retail and export market demands. Hence, we intend to increase the production capacity by setting up another refinery of 1200 MT in the State of Gujarat near Gandhidham.

With this expansion, our future production capacity is likely to be increased to **2100 MT** per day. With this enhanced capacity we will be one of the largest players in Salt industry in India and with this enhanced capacity we will be able to cater the retail demand and ever-growing export market demand.

Further with refineries in both the locations where raw salts is produced in India namely Rajasthan and Gujrat, we will also be able to tap the Southern and Central India which at present we were not catering due to high transportation cost.

The company aims to sell the major production of Gujrat refinery in small packing of 1kg, ½ Kg, 200 gms, 50 gms and 10 gms in the form of table salts etc.
